Bhrighav jain

Director - Monarch Graphic, Noida

This testimonial is for Mr. Kalim Ahmed Lohar and his company INXS Creation for Exhibition stall designing and fabrication work for our two exhibitions in month of August. We at Monarch Graphics were participating for first time in any kind of exhibitions and were looking to make a mark with same . We were completely confused as to how to go about the same till we got some great valuable insights from kalim who not only made us understand what value it brings to fabricate your own booth but also assured me getting a better footfall by using a creative design. Hence we decided to do away with our shell scheme and try out advocrat's services. The best part was that before providing me some very crisp designs, he not only understood the motive behind our participation but also went ahead to get insights about how we communicated about ourselves and encouraging us to put up live videos and distributing collaterals like brochures very effectively. The material used was of the most superior quality , hence the overall finish was excellent. The handover was on time to us and I literally walked in like a guest courtesy a hardworking team of INXS. There were absolutely no follow-ups and no glitches ; we were delivered what was shown in designs. Kalim's willingness to know about my products and their use enabled him to do a Fabrication work which left a lasting impression on visitor's mind which not only enhanced my reputa as a quality label printing company but someone with serious business on mind. We thank you team INXS for handholding us in our first direct communication with prospective customer's and helping us to crack the art of exhibiting.
